**"Sadie's music is sweet, soulful, rich, and beautiful. Her voice is captivating."- Chris C. CDBABY**

It was classic music from the '60s - the timeless voice of Otis Redding, the hard rock of Stevie Nicks and The Cure - as well as contemporary artists like Melissa Etheridge and Mazzy Star that shaped this gifted young singer/songwriter. Her real musical education came from the undisputed Queen of Soul, Aretha Franklin.

Spend some time with Sadie Rix album Running and your life will improve. A remarkable kick off to an endless career. Just taste that blend of blues, folk, and perhaps country Sadie delivers. WOW!!!!"- Ulf Kjell .
